## **The City of Alamogordo, New Mexico Selects Geographic Technologies Group (GTG) to Implement GIS Software Solutions**

**Goldsboro, NC** – Geographic Technologies Group, Inc. (GTG) announced today that the **City of Alamogordo, New Mexico** has procured software and services from GTG. The City of Alamogordo procured GTG's LGviewer and LGaddress.

LGviewer provides a set of GIS tools in a simple easy to use desktop application. LGviewer allows for visualization of land management information. Local government professionals have long desired the ability to map and analyze the spatial distribution of all data that is tracked within their enterprise IT systems. LGviewer is designed to GIS enable corporate databases in tandem with existing GIS data to provide a powerful set of tools for visualization and analysis.

LGaddress allows users to maintain address points, centerlines, and/or meter information. This tool then maintains a one-to-one relationship between that customer geography and the current in-house records such as billing, work orders, and consumption.

Curtis Hinton, CEO and Co-owner of GTG, stated that "We are excited about working with Alamogordo to integrate their existing IT investments with GIS. Alamogordo staff understand that the power of GIS is its ability to integrate municipal operations and allow staff to find answers to questions quickly and effectively."

### **About Geographic Technologies Group, Inc. (GTG):**

*GTG is a full-service local government GIS consulting company offering specialized experience in the planning, design, implementation, and procurement of geo-technologies. GTG has unmatched technical GIS capabilities, demonstrated successes, international experience, and a reputation for successfully implementing the right solutions. GTG develops GIS products that spatially enable various enterprise solutions and integrates an organization's IT investment via a common interface. GTG also offers stand alone products for land management, public safety, public access, touch screen technology, and utilities.*

*GTG has over 700 clients located throughout North America, the Caribbean, and Europe and serves all levels of government as well as the private sector. To support our clients, GTG maintains six offices located across the United States: Headquarters in North Carolina, and Regional Offices in Florida, Illinois, Oregon, Missouri, and Texas.*

Additional information may be obtained by contacting Geographic Technologies Group, Inc. at 888-757-4222 or you can access our website at [www.geotg.com](http://www.geotg.com).
