FOR IMMEDIATE RELEASE

GOLDSBORO, N.C. – **Geographic Technologies Group® (GTG®)** was selected for multiple software contracts and services including: **City of Alexandria, Virginia** – purchased 115 additional seats of LG Mobile. **Pasco County, Florida** – purchased one (1) seat of LG Route. **Placer County Water Authority, California** – purchased one (1) GeoManager. **County/City of Broomfield, Colorado** – purchased 30 seats of LG Mobile Community Connect and one (1) seat of LG Route. **City of Bismarck/Burleigh County, North Dakota** – purchased three (3) seats of LG Mobile Community Connect.

GTG performed GIS data creation for crime incidents and outstanding warrants for the **City of Pearland, Texas**.

GTG performed reinstallation and retraining of LG Viewer for the **City of La Quinta, California**.

GTG provided installation and training to **Placer County Water Authority, California** for GeoManager.

GTG provided installation and training to the **City of Unalaska, Alaska** for Geo Blade Viewer.

GTG performed a migration of LG Address to a new server for the **City of Bozeman, Montana**.

The **City of Goldsboro, North Carolina** went live with MapNimbus.

GTG completed a GIS Watershed Delineation Data Research Project for **Campbell County, Wyoming**. The project entailed researching all possible available data from Federal, State, and Local resources that could be used in the delineation of 3D watersheds. The developed data model will then be utilized in the Haestad modeling software to determine potential areas of road washout risks during periods of flooding.

About Geographic Technologies Group, Inc. (GTG):

GTG is a full-service local government GIS consulting company offering specialized experience in the planning, design, implementation, and procurement of geo-technologies. GTG has unmatched technical GIS capabilities, demonstrated successes, international experience, and a reputation for successfully implementing the right solutions. GTG develops GIS products that spatially enable various enterprise solutions and integrates an organization's IT investment via a common interface. GTG also offers stand alone products for land management, public safety, public access, touch screen technology, and utilities.

GTG has more than 700 clients located throughout North America and Europe and serves all levels of government as well as the private sector. To support our clients, GTG maintains four offices located across the United States: Headquarters in North Carolina, and regional offices in Texas and Florida.
