FOR IMMEDIATE RELEASE

GOLDSBORO, N.C. – Geographic Technologies Group® (GTG®) was selected for multiple software contracts including: **City of Alexandria, Virginia, Police Department**—purchased one (1) seat of LGroute. **City of Alexandria, Virginia, Fire Department**—purchased one (1) seat of LGroute. **City of Pearland, Texas**—upgrading their Viewer, Crimes, and Dispatch software to the ArcGIS Server environment. **City of Greenville, South Carolina**—purchased one (1) seat of LGaddress for public administration. **City of Normal, Illinois**—purchased one (1) seat of LGaddress for public administration. **City of Ithaca, New York**—purchased an additional license of GISmo.

The City of Hoover, Alabama selected GTG to develop a multi-year, phased GIS Strategic Implementation Plan.

Greenville County, South Carolina selected GTG to perform address clean-up services.

GTG is pleased to welcome **Matt Tisser** to their staff as a GIS Technician, as well as **Gina Bryant** as a GIS intern.

GTG invites existing and potential clients to create their GIS budget online. Visit www.geotg.com/main.html for more details.

GTG is pleased to announce the release of **Geo Blade Web**, one of the blades, or additional functionalities, incorporated into the **Geo Blade software suite**. Geo Blade Web is a simplistic mapping interface designed and engineered for public use. Its simple click functionality is designed for identifying GIS features and their attributes. This information can be used for a variety of purposes. For more information on Geo Blade Web, as well as other available blades in the Geo Blade series, visit www.geotg.com/geoblade.

About Geographic Technologies Group, Inc. (GTG):

GTG is a full-service local government GIS consulting company offering specialized experience in the planning, design, implementation, and procurement of geo-technologies. GTG has unmatched technical GIS capabilities, demonstrated successes, international experience, and a reputation for successfully implementing the right solutions. GTG develops GIS products that spatially enable various enterprise solutions and integrates an organization's IT investment via a common interface. GTG also offers stand alone products for land management, public safety, public access, touch screen technology, and utilities.

GTG has over 700 clients located throughout North America and Europe and serves all levels of government as well as the private sector. To support our clients, GTG maintains three offices located across the United States: Headquarters in North Carolina, and Regional Offices in Texas and Florida.

Additional information may be obtained by contacting Geographic Technologies Group, Inc. at 888-757-4222, or you can access our website at www.geotg.com.
