GTG Welcomes Solutions Provider Brent Beck to North Carolina Corporate Office

GOLDSBORO, N.C. – Geographic Technologies Group, Inc. (GTG) is pleased to welcome Solutions Provider Brent Beck to their North Carolina corporate office. Beck will assist local government organizations in finding solutions that will increase productivity, improve efficiency, and ultimately save time, money, and lives.

Beck holds a Bachelor of Science degree in GIS from Brigham Young University. Throughout his career, he has been involved with a variety of initiatives matching clients with custom tailored solutions.

“I’m looking forward to being a solutions provider for GTG because it allows me to pursue two fields that I am very passionate about—GIS and customer service,” said Beck. “I am also enthusiastic about GTG’s focus on local government. In my opinion, that is GIS at its best.”

As a solutions provider, Beck will work closely with clients to provide them with comprehensive solutions that fit their local government’s specific needs and wants.

“We’re very excited to have Brent on the GTG team,” said Curt Hinton, CEO of GTG. “His passion for both customer service and GIS technology will undoubtedly benefit our clients. Brent’s people skills and professionalism will continue to define GTG as the leading GIS consulting company in the nation.”

Beck says that he is privileged to have the opportunity to be able to make a difference in communities throughout the country with GTG’s suite of GIS products and services. “I want to be able to go home every day with the satisfaction of knowing that through my efforts, our clients were able to find real solutions to real problems.”

For more information on GTG, as well as products and services offered, visit www.geotg.com or call 888-757-4222.

About Geographic Technologies Group, Inc.:

GTG is a full-service local government GIS consulting company offering specialized experience in the planning, design, implementation, and procurement of geo-technologies. GTG has unmatched technical GIS capabilities, demonstrated successes, international experience, and a reputation for successfully implementing the right solutions. GTG develops GIS products that spatially enable various enterprise solutions and integrates an organization's IT investment via a common interface. GTG also offers stand alone products for land management, public safety, public access, touch screen technology, and utilities.

GTG has more than 700 clients located throughout North America, the Caribbean, and Europe and serves all levels of government as well as the private sector. To support our clients, GTG

maintains four offices located across the United States: Headquarters in North Carolina, and Regional Offices in Texas and Florida.
