## **The City of Chesapeake, Virginia Selects GTG to Develop GIS Strategic Implementation Plan**

**GOLDSBORO, N.C.** –The City of Chesapeake, Virginia, selected Geographic Technologies Group, Inc. (GTG) to develop a GIS Strategic Implementation Plan. The multi-year, phased plan will evaluate current GIS operations in the City and make recommendations that will ensure an enterprise-wide GIS.

The project will include on-site interviews and presentations to all of the stakeholders. The resultant plan will serve as the step-by-step guide of how GIS is governed, implemented, and distributed throughout the City.

The third most populous city in Virginia, Chesapeake is an independent city that borders North Carolina and is home to many protected forests and wetlands, including a portion of the Great Dismal Swamp.

“GTG is very excited to work with Chesapeake on their GIS Plan,” said Curt Hinton, CEO of GTG. “Chesapeake has experienced years of GIS success and wants to move to a fully integrated enterprise-wide implementation. To that end, they have decided to create a plan that will lay out a step-by-step outline on how to make it happen. GTG has had the opportunity of working with neighboring Suffolk and Virginia Beach and understands the needs of local governments in the area. The staff at Chesapeake are very forward thinking and will undoubtedly ensure that their GIS efforts are second to none.”

### **About Geographic Technologies Group, Inc. (GTG):**

GTG is a full-service local government GIS consulting company offering specialized experience in the planning, design, implementation, and procurement of geo-technologies. GTG has unmatched technical GIS capabilities, demonstrated successes, international experience, and a reputation for successfully implementing the right solutions. GTG develops GIS products that spatially enable various enterprise solutions and integrates an organization's IT investment via a common interface. GTG also offers stand alone products for land management, public safety, public access, touch screen technology, and utilities.

GTG has over 700 clients located throughout North America and Europe and serves all levels of government as well as the private sector. To support our clients, GTG maintains three offices located across the United States: Headquarters in North Carolina, and Regional Offices in Texas and Florida.
