Coachella Valley Water District Selects GTG to Implement GIS Software Solutions

GOLDSBORO, N.C. – Geographic Technologies Group, Inc. (GTG) announces that the Coachella Valley Water District in Coachella, Calif. has selected GTG to implement five seats of LG Geo Blade Viewer. This implementation will enhance the City’s ability to serve its citizens and contribute to a noticeable Return on Investment.

LG Geo Blade Viewer provides a set of GIS tools in a simple, easy-to-use desktop application. It allows for visualization of land management information such as utility meters, occupational licenses, work orders, building permits, and code enforcement violations. Local government professionals have long desired the ability to map and analyze the spatial distribution of all data that is tracked within their enterprise IT systems. LG Geo Blade Viewer is designed to GIS-enable corporate databases in tandem with existing GIS data to provide a powerful set of tools for visualization and analysis.

“The GIS visualization and analysis capabilities of the LG product line will enhance the Coachella Valley Water District’s ability to plan and manage operations,” said David Holdstock, CEO of GTG.

About Geographic Technologies Group, Inc. (GTG):

GTG is a full-service local government GIS consulting company offering specialized experience in the planning, design, implementation, and procurement of geo-technologies. GTG has unmatched technical GIS capabilities, demonstrated successes, international experience, and a reputation for successfully implementing the right solutions. GTG develops GIS products that spatially enable various enterprise solutions and integrates an organization's IT investment via a common interface. GTG also offers stand alone products for land management, public safety, public access, touch screen technology, and utilities.

GTG has over 700 clients located throughout North America and Europe and serves all levels of government as well as the private sector. To support our clients, GTG maintains four offices located across the United States: Headquarters in North Carolina, and Regional Offices in Texas and Florida.
