## **Geographic Technologies Group Welcomes Software Support Specialist, Donald Lee**

**GOLDSBORO, N.C.** – Geographic Technologies Group, Inc. (GTG) is pleased to welcome Donald Lee, Software Support Specialist, to their North Carolina corporate office.

Donald brings a variety of experience and skills to his position. With a degree in Information Systems/ Network Administration and Support, Donald participated in the Cisco Network Academy, enhancing his computer programming and installation skills. He previously worked for PC Pros, where he learned new technologies and put them to use in a working environment. Donald also volunteers as an IT technician for his church.

“I enjoy learning and mastering new technology,” said Donald. “I want to enhance my skills and use them to provide quality service to GTG’s clients.”

As a Software Support Specialist, Donald will be supporting GTG’s Geo Blade software suite. Geo Blade is an enterprise GIS software solution based on ESRI’s ArcGIS Server platform. Geared toward any department or division, the Geo Blade toolset is equipped with a customizable viewer. Additional customizable department-specific plug-ins, called “blades,” can be added to the core viewer.

“Having Donald on board as a Software Support Specialist will be extremely beneficial to GTG’s clients,” said Curt Hinton, CEO of GTG. “His skills and desire to serve clients are exceptional, and we are looking forward to what the future holds with him as a part of the GTG team.”

For more information on GTG and the Geo Blade software suite, visit [www.geotg.com](http://www.geotg.com).

### **About Geographic Technologies Group, Inc.:**

GTG is a full-service local government GIS consulting company offering specialized experience in the planning, design, implementation, and procurement of geo-technologies. GTG has unmatched technical GIS capabilities, demonstrated successes, international experience, and a reputation for successfully implementing the right solutions. GTG develops GIS products that spatially enable various enterprise solutions and integrates an organization's IT investment via a common interface. GTG also offers stand alone products for land management, public safety, public access, touch screen technology, and utilities.

GTG has over 700 clients located throughout North America, the Caribbean, and Europe and serves all levels of government as well as the private sector. To support our clients, GTG maintains five offices located across the United States: Headquarters in North Carolina, and Regional Offices in Texas, Illinois, and Florida.

Additional information may be obtained by contacting Geographic Technologies Group, Inc. at 888-757-4222, or you can access our website at [www.geotg.com](http://www.geotg.com).
