Geographic Technologies Group Announces New Florida Office Opening

GOLDSBORO, N.C.— Geographic Technologies Group® (GTG®), a leading provider of professional GIS services and software for local government, announced today the addition of Luke Granlund as the new Florida GIS Solutions Manager in GTG's Jacksonville, Florida office.

Mr. Granlund has over 12 years of diversified GIS experience at the local level (both in the public and private sectors) focusing on public safety and training. In the private sector Mr. Granlund's experiences have included technical training roles with two prominent public safety and governmental software providers. In the public sector Mr. Granlund worked for the City of Tallahassee, Florida as a Crime Analyst, Police Officer, and GIS Coordinator for the City's Neighborhood and Community Services Department.

Mr. Granlund understands the need for practical and cost-effective solutions for governmental agencies. "I'm looking forward to working with GTG's current and future client base to provide reliable and accurate GIS data and to harness the power of GIS mapping solutions with third party partners" said Mr. Granlund, GIS Solutions Manager of the new Florida office.

The Florida offices' proximity to Georgia and Alabama will allow Mr. Granlund to reach out to GTG's clients in the area. "It is my goal to personally visit each of GTG's clients in the area to assess their needs and determine how GTG can help them implement a successful GIS. GTG can provide very specific, easy-to-use GIS applications to anyone with access to a computer."

Curt Hinton, CEO of GTG stated: "We are excited to expand our presence in the Southeast. Mr. Granlund come highly recommended and will be a great asset for our client base."

Luke can be reached via his mobile: (904) 599.5306 or email: lgranlund@geotg.com.

About Geographic Technologies Group, Inc. (GTG):

GTG is a full-service local government GIS consulting company offering specialized experience in the planning, design, implementation, and procurement of geo-technologies. GTG has unmatched technical GIS capabilities, demonstrated successes, international experience, and a reputation for successfully implementing the right solutions. GTG develops GIS products that spatially enable various enterprise solutions and integrates an organization's IT investment via a common interface. GTG also offers stand alone products for land management, public safety, public access, touch screen technology, and utilities.

GTG has over 700 clients located throughout North America and Europe and serves all levels of government as well as the private sector. To support our clients, GTG maintains six offices located across the United States: Headquarters in North Carolina, and Regional Offices in Texas, Florida, Illinois, Missouri, and Pennsylvania.
