The City of Fort Pierce, Florida Selects GTG to Develop GIS Strategic Implementation Plan

GOLDSBORO, N.C. –The City of Fort Pierce, Florida, selected Geographic Technologies Group, Inc. (GTG) to develop a GIS Strategic Implementation Plan. The multi-year, phased plan will evaluate current GIS operations in the City and make recommendations that will ensure an enterprise-wide GIS.

The project will include on-site interviews and presentations to all of the stakeholders. The resultant plan will serve as the step-by-step guide of how GIS is governed, implemented, and distributed throughout the City.

Also known as the Sunrise City, Fort Pierce is one of the oldest communities on the east coast of Florida.

“We at GTG are very excited to work with Fort Pierce,” said Curt Hinton, CEO of GTG. “The staff at the City is very receptive to expanding GIS to the enterprise. GTG is taking a detailed look at all of Fort Pierce’s current processes and seeing where GIS best fits.”

About Geographic Technologies Group, Inc. (GTG):

GTG is a full-service local government GIS consulting company offering specialized experience in the planning, design, implementation, and procurement of geo-technologies. GTG has unmatched technical GIS capabilities, demonstrated successes, international experience, and a reputation for successfully implementing the right solutions. GTG develops GIS products that spatially enable various enterprise solutions and integrates an organization's IT investment via a common interface. GTG also offers stand alone products for land management, public safety, public access, touch screen technology, and utilities.

GTG has over 700 clients located throughout North America and Europe and serves all levels of government as well as the private sector. To support our clients, GTG maintains five offices located across the United States: Headquarters in North Carolina, and Regional Offices in Texas, Illinois, and Florida.
