Registration Open for GIS Manager's Workshop in Forsyth County, Georgia on Nov. 20

Goldsboro, N.C. – Reserve your spot before it's too late! Registration is open for Geographic Technologies Group, Inc.'s (GTG) upcoming GIS Manager's Workshop in Forsyth County, Georgia, on November 20. The workshop will be held at the Forsyth County Public Safety Complex.

The GIS Manager's Workshop will occur in conjunction with GIS Day, which takes place the day before the workshop. Forming part of the Atlanta metropolitan area, Forsyth County's location will provide students with the practical knowledge many GIS managers must have to succeed.

"This workshop is just what I was looking for," said a recent attendee of the GIS Manager's Workshop. "It was a grounding class and will help refocus our GIS implementation efforts."

Topics covered in the workshop include Managing GIS, The Governance of GIS, The Enterprise Implementation of GIS, and The Business Case for GIS. All topics focus on local government. Learn how to guarantee funding for your GIS initiatives!

Forsyth County is just one location in the series of workshops that GTG's owners, Curt Hinton and David Holdstock, are offering nationwide this year. To date, they have offered the workshop in North Carolina, Texas, Florida, California, and Washington. They plan on offering the GIS Manager's Workshop at several upcoming conferences including SWUG on October 24, ILGISA on November 5, and NCGIS in February.

For more information on this GIS Manager's Workshop or to register, email training@geotg.com or visit us online at www.geotg.com/training.

About Geographic Technologies Group, Inc. (GTG):

GTG is a full-service local government GIS consulting company offering specialized experience in the planning, design, implementation, and procurement of geo-technologies. GTG has unmatched technical GIS capabilities, demonstrated successes, international experience, and a reputation for successfully implementing the right solutions. GTG develops GIS products that spatially enable various enterprise solutions and integrates an organization's IT investment via a common interface. GTG also offers stand alone products for land management, public safety, public access, touch screen technology, and utilities.

GTG has over 700 clients located throughout North America and Europe and serves all levels of government as well as the private sector. To support our clients, GTG maintains five offices located across the United States: Headquarters in North Carolina, and Regional Offices in Texas, Illinois, and Florida.

Additional information may be obtained by contacting Geographic Technologies Group, Inc. at 888-757-4222 or you can access our website at www.geotg.com.
