FOR IMMEDIATE RELEASE

GTG's MapNimbus Unique Cloud Based GIS Public Access Portal adds New Users and Functionality

GOLDSBORO, N.C. – Geographic Technologies Group (GTG) is pleased to announce new MapNimbus clients. Lumberton, NC has implemented MapNimbus to track crime and sex offenders. Missouri City, TX has implemented the technology for code enforcement cases. MapNimbus users can quickly view posted activity in their area and receive notifications for events within a selected distance from a point of interest. GTG's president Curt Hinton points out, "Hosting GIS data in the cloud has been a positive advancement for our clients. The ease of use of MapNimbus has allowed local governments to provide online GIS services that are a step ahead of most sites. The ability to auto-notify interested citizens is critical and is becoming expected by the computer savvy citizen."

For more info on MapNimbus call Curt Hinton at 888-757-4222 or email chinton@geotg.com.

About Geographic Technologies Group, Inc. (GTG):

GTG is a full-service local government GIS consulting company offering specialized experience in the planning, design, implementation, and procurement of geo-technologies. GTG has unmatched technical GIS capabilities, demonstrated successes, international experience, and a reputation for successfully implementing the right solutions. GTG develops GIS products that spatially enable various enterprise solutions and integrates an organization's IT investment via a common interface. GTG also offers stand alone products for land management, public safety, public access, touch screen technology, and utilities.

GTG has more than 700 clients located throughout North America and Europe and serves all levels of government as well as the private sector. To support our clients, GTG maintains four offices located across the United States: Headquarters in North Carolina, and regional offices in Texas, Florida, and Ohio.

Additional information may be obtained by contacting Geographic Technologies Group, Inc. at 888-757-4222 or you can access our website at www.geotg.com.
