

## **Geographic Technologies Group to Be Featured in Upcoming Issue of GeoWorld**

**Goldsboro, N.C.** – Geographic Technologies Group, Inc. (GTG), a leading GIS solutions provider, will be featured in the June issue of GeoWorld magazine. The article will spotlight GTG’s new enterprise software suite, GeoBlade.

GeoWorld sent writer Brian Culpepper to GTG in early April to analyze the software. He received hands-on experience with the toolset, realizing its ease-of-use and user friendly functionality. GeoBlade’s easy-to-use, convenient features allow every local government professional to utilize the technology.

GeoBlade contains a core viewer, which serves as the backbone of the toolset. Additional plug-ins, called “blades,” may be added onto the core viewer. Each department specific blade is designed to satisfy the needs of each department.

“GeoBlade makes utilizing GIS simple and allows even non-technical local government departments to make the most of the technology,” said Curt Hinton, CEO of GTG. “GeoBlade offers a clear return on investment, saving time and money for all users, as well as improving communication with the community.”

Be sure to check out the article in the June issue of GeoWorld. For more information about the GeoBlade software suite, visit [www.geotg.com/geoblade.html](http://www.geotg.com/geoblade.html) or call 888-757-4222.

### **About Geographic Technologies Group, Inc. (GTG):**

GTG is a full-service local government GIS consulting company offering specialized experience in the planning, design, implementation, and procurement of geo-technologies. GTG has unmatched technical GIS capabilities, demonstrated successes, international experience, and a reputation for successfully implementing the right solutions. GTG develops GIS products that spatially enable various enterprise solutions and integrates an organization's IT investment via a common interface. GTG also offers stand alone products for land management, public safety, public access, touch screen technology, and utilities.

GTG has over 700 clients located throughout North America and Europe and serves all levels of government as well as the private sector. To support our clients, GTG maintains three offices located across the United States: Headquarters in North Carolina, and Regional Offices in Texas and Florida.
