Geographic Technologies Group Keeps Clients Informed with Twitter

GOLDSBORO, N.C. – Geographic Technologies Group, Inc. (GTG) is now on Twitter, providing clients with up-to-date information on what is new at GTG.

By following GTG on Twitter, current and future clients can be informed of all of the latest updates. These can include information on new GTG software, upgrades that may be available and current projects. Followers can also see what new technologies GTG is utilizing to better the GIS at local government organizations nationwide.

“Client satisfaction has always been our top priority at GTG and our presence on Twitter is just one way we’re enhancing our clients’ interaction with GTG,” said Curt Hinton, CEO of GTG. “Twitter allows us to provide clients with up-to-the-minute information on what’s new at GTG. Discovering all of the exciting things going on at GTG will wet clients’ appetites for what is possible when it comes to their GIS.”

About Geographic Technologies Group, Inc.:

GTG is a full-service local government GIS consulting company offering specialized experience in the planning, design, implementation, and procurement of geo-technologies. GTG has unmatched technical GIS capabilities, demonstrated successes, international experience, and a reputation for successfully implementing the right solutions. GTG develops GIS products that spatially enable various enterprise solutions and integrates an organization's IT investment via a common interface. GTG also offers stand alone products for land management, public safety, public access, touch screen technology, and utilities.

GTG has more than 700 clients located throughout North America, the Caribbean, and Europe and serves all levels of government as well as the private sector. To support our clients, GTG maintains three offices located across the United States: Headquarters in North Carolina, and Regional Offices in Texas and Florida.
