Geographic Technologies Group Launches New, Easier-To-Navigate Website

GOLDSBORO, N.C. – Geographic Technologies Group, Inc. (GTG) has launched a new website. The URL for the new site is the same as the URL previously used by GTG, <http://www.geotg.com>.

“At GTG, we want to make our clients feel as comfortable as possible while inquiring about us on the web,” said Curt Hinton, CEO of GTG. “That is why we have improved our website to satisfy the needs of our current and future clients.”

The new website contains a wealth of information including products and services that GTG has to offer, case studies on how clients have used GIS to benefit their organizations, and up-to-date information regarding training opportunities with GTG.

“We are really excited about the launch of our new website. Its design is optimal for finding detailed and up-to-date information on all of our services,” stated Jessica Horton, Business Development Manager for GTG. “The newest addition to the site is our training page. We are planning to offer online training workshops in the summer, which will be accessed from this new site. It’s really exciting.” Other new features include a company profile, new product spotlights of GTG’s ArcGIS Server based product, GeoBlade, and product tutorials.

For more information, contact Jessica Horton at jhorton@geotg.com.

About Geographic Technologies Group, Inc.:

GTG is a full-service local government GIS consulting company offering specialized experience in the planning, design, implementation, and procurement of geo-technologies. GTG has unmatched technical GIS capabilities, demonstrated successes, international experience, and a reputation for successfully implementing the right solutions. GTG develops GIS products that spatially enable various enterprise solutions and integrates an organization's IT investment via a common interface. GTG also offers stand alone products for land management, public safety, public access, touch screen technology, and utilities.

GTG has over 700 clients located throughout North America, the Caribbean, and Europe and serves all levels of government as well as the private sector. To support our clients, GTG maintains four offices located across the United States: Headquarters in North Carolina, and Regional Offices in Texas, Missouri, and Florida.

Additional information may be obtained by contacting Geographic Technologies Group, Inc. at 888-757-4222 or you can access our website at www.geotg.com.
