GTG's Geo Blade Viewer Empowers Local Government Enterprise GIS

Goldsboro, N.C. – Geographic Technologies Group, Inc. (GTG), an industry-leading GIS solutions provider, announces the release of Geo Blade Viewer. It is ESRI compliant and operates with ArcGIS Server.

Geo Blade Viewer is a powerful GIS viewer application that allows local government agencies to easily query and analyze GIS data. Designed to be used by all staff, the core viewer application was designed for the end user and provides a set of GIS tools in an easy-to-use desktop application. Tools include portal setups, automatic mining of data from any record management system, and hot linking.

Geo Blade Viewer serves as the backbone of the many department-specific “blades” incorporated into the Geo Blade software suite. Blades are additional functionalities to the core viewer, specific to an agency’s departmental needs.

“Geo Blade Viewer is the foundation of the Geo Blade software suite,” said Curt Hinton, CEO of GTG. “It was designed to make GIS a realistic goal for all local government departments. Its easy-to-use interface and sophisticated integration capabilities make Geo Blade the best option for local governments searching for the perfect enterprise-wide GIS toolset.”

For more information on the Geo Blade software suite, visit www.geotg.com/geoblade.html or call 888-757-4222.

About Geographic Technologies Group, Inc. (GTG):

GTG is a full-service local government GIS consulting company offering specialized experience in the planning, design, implementation, and procurement of geo-technologies. GTG has unmatched technical GIS capabilities, demonstrated successes, international experience, and a reputation for successfully implementing the right solutions. GTG develops GIS products that spatially enable various enterprise solutions and integrates an organization's IT investment via a common interface. GTG also offers stand alone products for land management, public safety, public access, touch screen technology, and utilities.

GTG has over 700 clients located throughout North America and Europe and serves all levels of government as well as the private sector. To support our clients, GTG maintains four offices located across the United States: Headquarters in North Carolina, and Regional Offices in Texas, Illinois, and Florida.
