Geographic Technologies Group (GTG) Implements a New GIS Software Solution - GeoBlade Web

Goldsboro, NC – Geographic Technologies Group, Inc. (GTG) is pleased to announce GeoBlade Web. GeoBlade Web is a dynamically powerful web-based application for the public. This web-based application provides many functionalities such as online mapping, advanced querying capabilities, and viewing of GIS Data. GTG's expansion of its software suite to include GeoBlade Web is a huge step in leveraging existing technology investments for use with GIS software.

GTG knows that GIS technology must constantly evolve to meet the changing needs of business, industry, government, and education. With a staff of former GIS Managers and Coordinators, GTG understands the challenges faced by organizations.

Curt Hinton, Chief Technology Officer and co-owner of GTG stated that, "GeoBlade Web offers all of the functionality needed for local government. The product offers a very intuitive authoring tool that makes it easy to publish numerous sites with different targeted uses. Additionally, this ArcIMS based product will have an upgrade path to ArcServer as clients desire."

GTG offers many services and have developed several applications tailored specifically to meet the needs of our clients, providing them with effective GIS solutions. Along with desktop applications, GTG develops interactive Internet and Intranet mapping systems.

GTG will be offering a series of webinars highlighting the ease-of-use and robust functionality of the GeoBlade suite of products. Webinar dates can be found on GTG's website at <http://www.geotg.com/software>.

About Geographic Technologies Group, Inc. (GTG):

GTG is a full-service local government GIS consulting company offering specialized experience in the planning, design, implementation, and procurement of geo-technologies. GTG has unmatched technical GIS capabilities, demonstrated successes, international experience, and a reputation for successfully implementing the right solutions. GTG develops GIS products that spatially enable various enterprise solutions and integrates an organization's IT investment via a common interface. GTG also offers stand alone products for land management, public safety, public access, touch screen technology, and utilities.

GTG has over 700 clients located throughout North America, the Caribbean, and Europe and serves all levels of government as well as the private sector. To support our clients, GTG maintains six offices located across the United States: Headquarters in North Carolina, and Regional Offices in Florida, Illinois, Oregon, Pennsylvania and Texas.

Additional information may be obtained by contacting Geographic Technologies Group, Inc. at 888-757-4222 or you can access our website at www.geotg.com.
