Geographic Technologies Group Announces Release of GeoBlade AVL

Goldsboro, N.C. – Geographic Technologies Group, Inc. (GTG), a leading GIS solutions provider, is pleased to announce the release of GeoBlade AVL. GeoBlade AVL is part of a family of “blades” incorporated into the GeoBlade toolset. Blades are additional functionalities to the core viewer, specific to an agency’s departmental needs.

This highly customizable application has the ability to track the location and speed of vehicles, such as police cars, fire engines, and snow plows. Historic searches provide an effective source of accountability, leading to post-analysis if necessary. GeoBlade AVL works with GeoBlade Viewer, Dispatch, and Mobile. It also has the ability to create maps and reports.

“GTG is very excited about the release of GeoBlade AVL. Our clients are finding that they must track their fleet and utilize GIS for quick decision making,” said Curt Hinton, CEO of GTG. “The ArcGIS Server-based GeoBlade Suite is truly revolutionizing how government does business.”

For more information on the GeoBlade software suite, visit www.geotg.com/geoblade.html or call 888-757-4222.

About Geographic Technologies Group, Inc. (GTG):

GTG is a full-service local government GIS consulting company offering specialized experience in the planning, design, implementation, and procurement of geo-technologies. GTG has unmatched technical GIS capabilities, demonstrated successes, international experience, and a reputation for successfully implementing the right solutions. GTG develops GIS products that spatially enable various enterprise solutions and integrates an organization's IT investment via a common interface. GTG also offers stand alone products for land management, public safety, public access, touch screen technology, and utilities.

GTG has over 700 clients located throughout North America and Europe and serves all levels of government as well as the private sector. To support our clients, GTG maintains three offices located across the United States: Headquarters in North Carolina, and Regional Offices in Texas and Florida.
