The City of Goose Creek, S.C. Selects GTG to Develop Water System Mapping Solution

GOLDSBORO, N.C. – After a competitive bid process, the City of Goose Creek Department of Public Works has selected Geographic Technologies Group, Inc. (GTG) to develop a water system mapping solution.

The project will include a water system mapping assessment and recommendations for water system mapping and operations. The final result will be a state-of-the-art water system mapping solution. GTG will interview all stakeholders and analyze workflow processes to ensure that the final solution is accurately dovetailed to match the unique needs of the city.

“GTG is delighted to be working with the City of Goose Creek Public Works Department,” said David Holdstock, President of GTG. “Accurate and reliable water system mapping is a critical factor in today’s climate.”

Located in southeastern South Carolina, the City of Goose Creek is included within the Charleston-North Charleston Urbanized Area. Its close proximity to Charleston requires Goose Creek to ensure its place in the booming field of GIS and similar advancing technologies.

About Geographic Technologies Group, Inc. (GTG):

GTG is a full-service local government GIS consulting company offering specialized experience in the planning, design, implementation, and procurement of geo-technologies. GTG has unmatched technical GIS capabilities, demonstrated successes, international experience, and a reputation for successfully implementing the right solutions. GTG develops GIS products that spatially enable various enterprise solutions and integrates an organization's IT investment via a common interface. GTG also offers stand alone products for land management, public safety, public access, touch screen technology, and utilities.

GTG has over 700 clients located throughout North America and Europe and serves all levels of government as well as the private sector. To support our clients, GTG maintains four offices located across the United States: Headquarters in North Carolina, and Regional Offices in Texas and Florida.
