FOR IMMEDIATE RELEASE

GOLDSBORO, N.C. – Geographic Technologies Group, Inc. (GTG) is pleased to announce the opening of a new corporate office and training center. After several years of planning and preparation, GTG celebrated the official grand opening and ribbon cutting on December 10.

Festivities included an open house and ribbon cutting attended by staff, friends, family, and several city officials, including Mayor Al King of Goldsboro. After thanking the staff and attendees for their continuous support, co-owners Curt Hinton and David Holdstock, shared in cutting the ribbon.

“We have been looking forward to this moment for a long time,” said Hinton. “This new building presents GTG with many opportunities to better serve our current and future clients.”

Several training courses were also offered in conjunction with the grand opening of the state-of-the-art training facility. Courses included Introduction to ArcGIS I and II, as well as a GIS Manager’s Workshop attended by GIS managers and coordinators from across the state.

GTG’s new corporate office houses 30 staff members and a training facility that accommodates up to 20 students. The expansion was necessary due to continued growth and success in the company.

More information on the training center can be found by visiting, www.geotg.com/gis.

About Geographic Technologies Group, Inc.:

GTG is a full-service local government GIS consulting company offering specialized experience in the planning, design, implementation, and procurement of geo-technologies. GTG has unmatched technical GIS capabilities, demonstrated successes, international experience, and a reputation for successfully implementing the right solutions. GTG develops GIS products that spatially enable various enterprise solutions and integrates an organization's IT investment via a common interface. GTG also offers stand alone products for land management, public safety, public access, touch screen technology, and utilities.

GTG has over 700 clients located throughout North America, the Caribbean, and Europe and serves all levels of government as well as the private sector. To support our clients, GTG maintains four offices located across the United States: Headquarters in North Carolina, and Regional Offices in Texas, Missouri, and Florida.
