## **Greenville County, South Carolina Selects Geographic Technologies Group (GTG) to Implement GIS Software Solutions**

**Goldsboro, NC** – Geographic Technologies Group, Inc. (GTG) announced today that **Greenville County, South Carolina** has procured software and services from GTG. The County purchased an upgrade of LGdispatch to LGcommunity connect.

LGcommunity connect is a GIS software solution that allows both HTE Land and Public Safety users to integrate AVL with LG software. The software allows GPS enabled vehicles to be tracked via the GIS interface. It takes GPS data from vehicles and places a moving map symbol on the GIS map interface that corresponds to the vehicles location in the real world. Historical AVL information is maintained with the product.

Curtis Hinton, CEO and Co-owner of GTG, stated, " we have had a very successful relationship with Greenville County and are excited to work with them on the implementation of AVL. The Community Connect tools will allow Public Safety staff to track the location of all emergency vehicles and logically dispatch the optimal vehicle. Staff at Greenville County realize that they must continue to find ways to better protect their citizens. LGcommunity connect is a big step in that direction."

### **About Geographic Technologies Group, Inc. (GTG):**

*GTG is a full-service local government GIS consulting company offering specialized experience in the planning, design, implementation, and procurement of geo-technologies. GTG has unmatched technical GIS capabilities, demonstrated successes, international experience, and a reputation for successfully implementing the right solutions. GTG develops GIS products that spatially enable various enterprise solutions and integrates an organization's IT investment via a common interface. GTG also offers stand alone products for land management, public safety, public access, touch screen technology, and utilities.*

*GTG has over 700 clients located throughout North America, the Caribbean, and Europe and serves all levels of government as well as the private sector. To support our clients, GTG maintains six offices located across the United States: Headquarters in North Carolina, and Regional Offices in Florida, Illinois, Oregon, Pennsylvania and Texas.*
