Geographic Technologies Group Welcomes GIS Projects Manager, Jason Knowles

GOLDSBORO, N.C. – Geographic Technologies Group, Inc. (GTG) announces the recent addition of Jason Knowles PhD, GIS Projects Manager, to their new Davie, Florida office.

Jason brings a wide variety of GIS experience, from municipal level consulting work to GIS emergency response work following Hurricane Katrina. He has designed and implemented many GIS systems and projects based on customer needs. Jason says that he is particularly interested in advanced public safety GIS solutions and enjoys being on the forefront of applied GIS technologies.

“GTG’s products and services are very professional and competent, values that I personally embody and believe to be essential to a successful business,” said Jason. “I enjoy being part of a team that offers an exciting wide range of cutting-edge GIS services, striving to find new ways for local government to use GIS technology more effectively.”

As a GIS Projects Manager, Jason will focus on the south and central region of Florida and is responsible for GIS implementation, technical support, and client services. He will be using ArcGIS Server technology to implement enterprise GIS systems to reduce redundancy and improve efficiency within local governments.

“Having Jason on board presents an excellent opportunity for GTG to provide unmatched service for our clients,” said Curt Hinton, CEO of GTG. “Jason’s vast experience in GIS makes him the best choice to assist our clients in Florida. We are very excited about what the future holds with him as a part of the GTG team.”

Jason’s presence in Davie, Florida, allows him to be available to a large number of GTG’s clients, offering on-site consultations, client support, and other services clients may need. This available allows GTG to better serve clients in the area.

For more information on GTG and services offered, visit www.geotg.com or call 888-757-4222.

About Geographic Technologies Group, Inc.:

GTG is a full-service local government GIS consulting company offering specialized experience in the planning, design, implementation, and procurement of geo-technologies. GTG has unmatched technical GIS capabilities, demonstrated successes, international experience, and a reputation for successfully implementing the right solutions. GTG develops GIS products that spatially enable various enterprise solutions and integrates an organization's IT investment via a common interface. GTG also offers stand alone products for land management, public safety, public access, touch screen technology, and utilities.

GTG has over 700 clients located throughout North America, the Caribbean, and Europe and serves all levels of government as well as the private sector. To support our clients, GTG maintains five offices located across the United States: Headquarters in North Carolina, and Regional Offices in Texas, Illinois, and Florida.
