FOR IMMEDIATE RELEASE

GOLDSBORO, N.C. – Geographic Technologies Group® (GTG®) was selected for multiple software contracts and services including: **City of West Des Moines, Iowa 911 Communications Center** – purchased the Pictometry module for ArcGIS Server-based LG Geo Blade Dispatch and the LG Notify (CodeRED) module for ArcGIS Server-based LG Geo Blade Dispatch. **City of Tucson Water, Arizona** – purchased LG Address for Land, LG Geo Blade Viewer and the LG Work Order Module. **City of Lake Havasu, Arizona** – LG Dispatch Community Connect and LG Mobile Community Connect upgrade. Purchased additional 25 seats of LG Mobile Community Connect.

GTG implemented ESRI ArcGIS Server software for the **City of West Des Moines, Iowa 911 Communications Center**.

GTG provided installation and training for ArcGIS Server-based LG Geo Blade Dispatch, the Pictometry module for LG Geo Blade Dispatch and the LG Notify (CodeRED) module for LG Geo Blade Dispatch for the **City of West Des Moines, Iowa 911 Communications Center**.

GTG provided installation and training of LG Address for the **City of Cocoa, Florida**.

GTG developed a custom data mining SQL script for Utility Services for the **City of Milton, Florida**.

GTG successfully implemented and provided on-site training for the ArcGIS Server-based Geo Blade Crimes module for **Wayne County, North Carolina Sheriff's Office**.

GTG successfully implemented the AVL software module for tracking and displaying vehicle locations for GTG's ArcGIS Server-based 911 LG Geo Blade Dispatch software already deployed at the **City and County of Broomfield, Colorado 911 Dispatch Center**.

About Geographic Technologies Group, Inc. (GTG):

GTG is a full-service local government GIS consulting company offering specialized experience in the planning, design, implementation, and procurement of geo-technologies. GTG has unmatched technical GIS capabilities, demonstrated successes, international experience, and a reputation for successfully implementing the right solutions. GTG develops GIS products that spatially enable various enterprise solutions and integrates an organization's IT investment via a common interface. GTG also offers stand alone products for land management, public safety, public access, touch screen technology, and utilities.

GTG has more than 700 clients located throughout North America and Europe and serves all levels of government as well as the private sector. To support our clients, GTG maintains four offices located across the United States: Headquarters in North Carolina, and regional offices in Texas and Florida.
