

The City of Kingsport, Tennessee Selects Geographic Technologies Group (GTG) to Implement New GIS Software Solutions

Goldsboro, NC – Geographic Technologies Group, Inc. (GTG) announced today that the **City of Kingsport, Tennessee** has procured additional products from GTG's LG GIS software suite. The City will be implementing LGfires.

LGfires is a simple, easy-to-use GIS software product seamlessly integrated to Kingsport's existing fire incident data. It offers the fire departments refined spatial tools required in today's high-tech world. LGfires allows an end-user to generate plumes to predict hazardous material impact areas. The user can pick from a variety of atmospheric conditions, wind direction/speed and emission rates to create a hazard zone.

Curtis Hinton, CEO and Co-owner of GTG, stated that, "Kingsport continues to be a leader in GIS and IT integration in Tennessee. They understand that the true power of GIS is its ability to integrate disparate systems into one interface to solve problems and better protect citizens. LGfires will allow the City to better analyze their fire services and be much more proactive in protecting their citizens."

About Geographic Technologies Group, Inc. (GTG):

GTG is a full-service local government GIS consulting company offering specialized experience in the planning, design, implementation, and procurement of geo-technologies. GTG has unmatched technical GIS capabilities, demonstrated successes, international experience, and a reputation for successfully implementing the right solutions. GTG develops GIS products that spatially enable various enterprise solutions and integrates an organization's IT investment via a common interface. GTG also offers stand alone products for land management, public safety, public access, touch screen technology, and utilities.

GTG has over 700 clients located throughout North America, the Caribbean, and Europe and serves all levels of government as well as the private sector. To support our clients, GTG maintains six offices located across the United States: Headquarters in North Carolina, and Regional Offices in Texas, Florida, Illinois, Oregon, and Pennsylvania.
