**Geographic Technologies Group's Kissimmee, FL GIS Manager's Workshop a Success**

**Goldsboro, N.C.** – Geographic Technologies Group, Inc. (GTG) recently visited Kissimmee, Florida offering their GIS Manager's Workshop to GIS and IT managers. The Kissimmee workshop was the second in the series of workshops that Curt Hinton and David Holdstock, owners of GTG, will host during the year.

"Curt and David are very knowledgeable in the GIS subject matter, which brings on good discussion," said Michael Beedie, Utilities Operations Manager at the City of Fort Walton Beach, Florida, and an attendee of the workshop.

Topics covered in the workshop include Managing GIS, The Governance of GIS, The Enterprise Implementation of GIS, and The Business Case for GIS, with a focus on local government. Attendees learn how to successfully find the necessary funding for their GIS.

GTG also plans to hold the workshop in Olympia, Washington on May 7. In addition, a variety of other workshops and training courses will be offered in the near future, including Introduction to ArcGIS I and II, as well as department specific courses.

For more information on GIS Manager's Workshops near you, contact Jessica Horton at 888-757-4222 or [training@geotg.com](mailto:training@geotg.com).

**About Geographic Technologies Group, Inc. (GTG):**

GTG is a full-service local government GIS consulting company offering specialized experience in the planning, design, implementation, and procurement of geo-technologies. GTG has unmatched technical GIS capabilities, demonstrated successes, international experience, and a reputation for successfully implementing the right solutions. GTG develops GIS products that spatially enable various enterprise solutions and integrates an organization's IT investment via a common interface. GTG also offers stand alone products for land management, public safety, public access, touch screen technology, and utilities.

GTG has over 700 clients located throughout North America and Europe and serves all levels of government as well as the private sector. To support our clients, GTG maintains three offices located across the United States: Headquarters in North Carolina, and Regional Offices in Texas and Florida.
