The Village of Lansing, Illinois Selects Geographic Technologies Group (GTG) to Implement New GIS Software Solutions

Goldsboro, NC – Geographic Technologies Group, Inc. (GTG) announced today that the **Village of Lansing, Illinois** has procured additional products from GTG's LG GIS software suite. The Village has contracted for additional training of LGdispatch and LGcrimes.

LGdispatch is a Computer Aided Dispatch (CAD) mapping interface that provides E-911 dispatchers with an interactive map displaying the location of all emergency calls. LGdispatch offers advanced geo-coding capabilities. Addresses can be validated against address points, polygons (tax parcels) and lines (road network).

Curtis Hinton, CEO and Owner of GTG said, "We are excited to continue our partnership with Lansing. Village staff realize that staying current with technology and how best to harness that technology is critical to protecting the community. We at GTG are dedicated to working with our clients to insure that they can do their job efficiently and effectively."

The Village's continuing utilization of GTG's LG products highlights the value of our products as an integrated and comprehensive set of GIS solutions that leverage the Village's investment in their current applications. As with other fast-growing communities, the Village of Lansing has embraced cutting-edge technology to improve public safety services for its citizens.

About Geographic Technologies Group, Inc. (GTG):

GTG is a full-service local government GIS consulting company offering specialized experience in the planning, design, implementation, and procurement of geo-technologies. GTG has unmatched technical GIS capabilities, demonstrated successes, international experience, and a reputation for successfully implementing the right solutions. GTG develops GIS products that spatially enable various enterprise solutions and integrates an organization's IT investment via a common interface. GTG also offers stand alone products for land management, public safety, public access, touch screen technology, and utilities.

GTG has over 700 clients located throughout North America, the Caribbean, and Europe and serves all levels of government as well as the private sector. To support our clients, GTG maintains six offices located across the United States: Headquarters in North Carolina, and Regional Offices in Florida, Illinois, Oregon, Missouri, and Texas.
