Lenoir County, N.C. Utilizes GTG’s MapNimbus to Inform Citizens of Crime Information

GOLDSBORO, N.C. – Geographic Technologies Group (GTG) announces Lenoir County, N.C.’s recent adoption of GTG’s MapNimbus, an easy-to-use online public Web portal that provides citizens with information on what is happening in their neighborhood.

MapNimbus is an easy-to-use Google Maps-based interface that allows the public to view information in a variety of categories, including crime activity and sex offender data. It offers users a wide variety of functionality including built-in search, statistics, reporting, and e-mail notification capabilities.

“GTG is thrilled to launch MapNimbus at Lenoir County,” said Curt Hinton, CEO of GTG. “MapNimbus provides more information than other public Web portals on the market in a more user-friendly environment. It will empower and connect citizens more effectively than ever.”

MapNimbus will provide a noticeable return-on-investment at Lenoir County, saving time and valuable resources for both citizens and County personnel.

MapNimbus is free to the public. Lenoir County citizens can experience MapNimbus by visiting <http://www.co.lenoir.nc.us/sheriff.html> and clicking “Online Crime Mapping.”

For more information on how MapNimbus can benefit your community, visit www.geotg.com/mapnimbus.html or call 888-757-4222.

About Geographic Technologies Group, Inc.:

GTG is a full-service local government GIS consulting company offering specialized experience in the planning, design, implementation, and procurement of geo-technologies.
