The City of Margate, Florida Selects Geographic Technologies Group (GTG) to Implement GIS Software Solutions

Goldsboro, NC— Geographic Technologies Group, Inc. (GTG) announced today that the **City of Margate, Florida** has procured software and services from GTG. The City purchased an upgrade of LGmobile and LGdispatch to LGcommunity connect.

LGcommunity connect is a GIS software solution that allows both HTE Land and Public Safety users to integrate AVL with LG software. The software allows GPS enabled vehicles to be tracked via the GIS interface. It takes GPS data from vehicles and places a moving map symbol on the GIS map interface that corresponds to the vehicles location in the real world. Historical AVL information is maintained with the product.

Curtis Hinton, owner and CEO of GTG said, "We are excited about our continued partnership with Margate. Their staff realizes that the more information they have about geography the better they will be able to serve the citizens of Margate. With the addition of AVL, Margate is taking a large stride forward in an ongoing effort to protect the public and provide the best possible services."

About Geographic Technologies Group, Inc. (GTG):

GTG is a full-service local government GIS consulting company offering specialized experience in the planning, design, implementation, and procurement of geo-technologies. GTG has unmatched technical GIS capabilities, demonstrated successes, international experience, and a reputation for successfully implementing the right solutions. GTG develops GIS products that spatially enable various enterprise solutions and integrates an organization's IT investment via a common interface. GTG also offers stand alone products for land management, public safety, public access, touch screen technology, and utilities.

GTG has over 700 clients located throughout North America, the Caribbean, and Europe and serves all levels of government as well as the private sector. To support our clients, GTG maintains six offices located across the United States: Headquarters in North Carolina, and Regional Offices in Florida, Illinois, Missouri, Pennsylvania and Texas.

Additional information may be obtained by contacting Geographic Technologies Group, Inc. at 888-757-4222 or you can access our website at www.geotg.com.
