Geographic Technologies Group Welcomes Marketing Technician, Matthew McLamb

GOLDSBORO, N.C. – Geographic Technologies Group, Inc. (GTG) announces the recent addition of Matthew McLamb, Marketing Technician, to their North Carolina corporate office.

Matthew is in his final year at Mount Olive College and is majoring in Computer Information Systems. His background in technology will be beneficial to GTG's clients.

"I enjoy working in the field of GIS technology and learning how it can impact and benefit local government organizations," said Matthew. "I hope that my skills will be beneficial to GTG's Marketing Department."

As a Marketing Technician, Matthew will be responsible for ensuring that GTG is present in the media and that clients are aware of current happenings, along with new products and updates at GTG.

"Matthew's background in technology coupled with his interest in marketing and business practices make him an asset to the GTG team," said Curt Hinton, CEO of GTG. "Having Matthew on board will enhance our Marketing Department and ensure that clients are up-to-date on what is new at GTG."

About Geographic Technologies Group, Inc.:

GTG is a full-service local government GIS consulting company offering specialized experience in the planning, design, implementation, and procurement of geo-technologies. GTG has unmatched technical GIS capabilities, demonstrated successes, international experience, and a reputation for successfully implementing the right solutions. GTG develops GIS products that spatially enable various enterprise solutions and integrates an organization's IT investment via a common interface. GTG also offers stand alone products for land management, public safety, public access, touch screen technology, and utilities.

GTG has over 700 clients located throughout North America, the Caribbean, and Europe and serves all levels of government as well as the private sector. To support our clients, GTG maintains five offices located across the United States: Headquarters in North Carolina, and Regional Offices in Texas, Illinois, and Florida.
