### **GTG Welcomes GIS Solutions Manager Michael Dawson to New Fla. Regional Office**

**GOLDSBORO, N.C.** – Geographic Technologies Group, Inc. (GTG) announces the recent addition of Michael Dawson, GIS Solutions Manager, to their new St. Petersburg, Fla. regional office. This marks GTG’s second regional office in Florida after the Milton regional office.

Dawson brings 10 years of GIS experience to the position, which includes work with both local governments and private sector consultants. Dawson has held positions ranging from field data collector to GIS coordinator, which gives him a strong background in the practices of GIS, including data collection, custom software development and day-to-day GIS activities.

“I am looking forward to working with cutting-edge technology and applying that technology to GIS in order to benefit our clients,” said Dawson.

As GIS Solutions Manager, Dawson will be responsible for ensuring that clients’ projects are completed on time and within budget for his area.

“We’re excited to have Michael on board here at GTG,” said Curt Hinton, CEO of GTG. “Michael’s knowledge of custom software development coupled with his extensive GIS capabilities will enable GTG to more effectively serve its clients.”

Dawson is a key point of contact for GTG in Florida. “With GTG’s strong presence in the central and southern regions of Florida, I will be available as a nearby face-to-face contact for those clients,” Dawson said.

For more information on GTG and services offered, visit [www.geotg.com](http://www.geotg.com) or call 888-757-4222.

#### **About Geographic Technologies Group, Inc.:**

GTG is a full-service local government GIS consulting company offering specialized experience in the planning, design, implementation, and procurement of geo-technologies. GTG has unmatched technical GIS capabilities, demonstrated successes, international experience, and a reputation for successfully implementing the right solutions. GTG develops GIS products that spatially enable various enterprise solutions and integrates an organization's IT investment via a common interface. GTG also offers stand alone products for land management, public safety, public access, touch screen technology, and utilities.

GTG has over 700 clients located throughout North America, the Caribbean, and Europe and serves all levels of government as well as the private sector. To support our clients, GTG maintains four offices located across the United States: Headquarters in North Carolina, and Regional Offices in Texas and Florida.
