## **The City of Midland, Michigan Selects Geographic Technologies Group (GTG) to Implement New GIS Software Solutions**

**Goldsboro, NC** – Geographic Technologies Group, Inc. (GTG) announced today that the **City of Midland, Michigan** has procured additional products from GTG's LG GIS software suite. The City will be implementing LGcrimesweb.

LGcrimesweb aids in the visualization and dissemination of police incident information. Administrators can fully customize the way data is presented. LGcrimesweb allows an agency to display crimes as individual points or generalized to any geography such as neighborhoods. The LGcrimesweb administrator can decide how much information to make available for public consumption. LGcrimesweb is an affordable and easy-to-use crime reporting, mapping and querying software application designed for towns, cities and counties of all sizes and complexities.

Curtis Hinton, CEO and Co-owner of GTG, stated, "GTG is very excited to continue our long-standing relationship with Midland. City IT and GIS staff understand the importance of GIS and its ability to serve as an enterprise-wide portal to IT and GIS data. The implementation of LGcrimesweb will enable each police officer to do their own analysis and quickly visualize any area of concern. Midland understands that readily available information is the key to better serving their citizens."

### **About Geographic Technologies Group, Inc. (GTG):**

*GTG is a full-service local government GIS consulting company offering specialized experience in the planning, design, implementation, and procurement of geo-technologies. GTG has unmatched technical GIS capabilities, demonstrated successes, international experience, and a reputation for successfully implementing the right solutions. GTG develops GIS products that spatially enable various enterprise solutions and integrates an organization's IT investment via a common interface. GTG also offers stand alone products for land management, public safety, public access, touch screen technology, and utilities.*

*GTG has over 700 clients located throughout North America, the Caribbean, and Europe and serves all levels of government as well as the private sector. To support our clients, GTG maintains six offices located across the United States: Headquarters in North Carolina, and Regional Offices in Florida, Illinois, Oregon, Pennsylvania and Texas.*
