## **The City of Missouri City, Texas Selects Geographic Technologies Group (GTG) to Implement GIS Software Solutions**

**Goldsboro, NC** – Geographic Technologies Group, Inc. (GTG) announced today that the **City of Missouri City, Texas** has procured software and services from GTG. The City purchased an upgrade of LGdispatch to LGcommunity connect.

LGcommunity connect is a GIS software solution that allows both HTE Land and Public Safety users to integrate AVL with LG software. The software allows GPS enabled vehicles to be tracked via the GIS interface. It takes GPS data from vehicles and places a moving map symbol on the GIS map interface that corresponds to the vehicles location in the real world. Historical AVL information is maintained with the product.

James Kelt, GTG's Regional Manager and director of GTG's Texas office says, "Global Positioning Systems technology is becoming an important part of enterprise GIS technology. By adding GPS receivers and LGcommunity connect to the City's fleet of police vehicles, officials and dispatchers will now be able to visualize the location of every first responder vehicle, their dispatched status, average speed as well as a wealth of other information. This will not only reduce response times, but will also help make the City of Missouri City a safe place to live by saving time, money and lives."

### **About Geographic Technologies Group, Inc. (GTG):**

*GTG is a full-service local government GIS consulting company offering specialized experience in the planning, design, implementation, and procurement of geo-technologies. GTG has unmatched technical GIS capabilities, demonstrated successes, international experience, and a reputation for successfully implementing the right solutions. GTG develops GIS products that spatially enable various enterprise solutions and integrates an organization's IT investment via a common interface. GTG also offers stand alone products for land management, public safety, public access, touch screen technology, and utilities.*

*GTG has over 700 clients located throughout North America, the Caribbean, and Europe and serves all levels of government as well as the private sector. To support our clients, GTG maintains six offices located across the United States: Headquarters in North Carolina, and Regional Offices in Florida, Illinois, Oregon, Pennsylvania and Texas.*

Additional information may be obtained by contacting Geographic Technologies Group, Inc. at 888-757-4222 or you can access our website at [www.geotg.com](http://www.geotg.com).
