City of Murrieta, Calif. Selects GTG to Implement GIS Software Solutions for Public Safety

GOLDSBORO, N.C. – Geographic Technologies Group, Inc. (GTG) announces that the City of Murrieta, California has procured state-of-the-art GIS software for public safety, LG Mobile Community Connect. This software application will allow the City of better protect the community and serve its citizens more effectively and efficiently.

LG Mobile Community Connect is a GIS software solution that allows LG users to integrate AVL with the LG Mobile software. LG Mobile allows officers in the field to view critical GIS and 911 call data. The software allows GPS enabled vehicles to be tracked via the GIS interface. It takes GPS data from vehicles and places a moving map symbol on the GIS map interface that corresponds to the vehicles location in the real world. Historical AVL information is maintained with the product.

“We are excited about the opportunity to continue to assist Murrieta with their Public Safety GIS needs,” said Curt Hinton, CEO of GTG. “Murrieta understands that timely information is critical to delivering the best services to the citizens. We look forward to a successful AVL implementation at the City.”

About Geographic Technologies Group, Inc. (GTG):

GTG is a full-service local government GIS consulting company offering specialized experience in the planning, design, implementation, and procurement of geo-technologies. GTG has unmatched technical GIS capabilities, demonstrated successes, international experience, and a reputation for successfully implementing the right solutions. GTG develops GIS products that spatially enable various enterprise solutions and integrates an organization's IT investment via a common interface.
