## **The City of Natchitoches, Louisiana Selects Geographic Technologies Group (GTG) to Implement GIS Software Solutions**

**Longview, TX** – Geographic Technologies Group, Inc. (GTG) announced today that the **City of Natchitoches, Louisiana** has procured products from GTG's LG GIS software suite. The City will be implementing LGfires to better serve the City.

LGfires is a simple, easy-to-use GIS software product seamlessly integrated into Natchitoches' existing fire incident data. It offers the fire departments refined spatial tools required in today's high-tech world. LGfires allows an end-user to generate plumes to predict hazardous material impact areas. The user can pick from a variety of atmospheric conditions, wind direction/speed and emission rates to create a hazard zone.

James Kelt, Regional Manager for GTG, stated, "LGfires is a simple, easy-to-use GIS software product seamlessly integrated to the City of Natchitoches' Fires RMS database. It offers fire department staff refined spatial tools for analyzing fire incidents, patterns, and emergency situations. LGfires is an ESRI GIS based mapping tool for the visualization and analysis of incidents stored within the Fires database. The application continually interacts with the LGfires modules to map all incidents. Pertinent data from the database is available via the mapped points."

### **About Geographic Technologies Group, Inc. (GTG):**

*GTG is a full-service local government GIS consulting company offering specialized experience in the planning, design, implementation, and procurement of geo-technologies. GTG has unmatched technical GIS capabilities, demonstrated successes, international experience, and a reputation for successfully implementing the right solutions. GTG develops GIS products that spatially enable various enterprise solutions and integrates an organization's IT investment via a common interface. GTG also offers stand alone products for land management, public safety, public access, touch screen technology, and utilities.*

*GTG has over 700 clients located throughout North America, the Caribbean, and Europe and serves all levels of government as well as the private sector. To support our clients, GTG maintains four offices located across the United States: Headquarters in North Carolina, and Regional Offices in Florida, Missouri, and Texas.*

Additional information may be obtained by contacting Geographic Technologies Group, Inc. at 888-757-4222 or you can access our website at [www.geotg.com](http://www.geotg.com).
