FOR IMMEDIATE RELEASE

GOLDSBORO, N.C. – **Geographic Technologies Group (GTG)** would like to announce that the following municipalities and local governments have selected GTG for products and services. The **City of Valdez, Alaska** has retained GTG to provide a series of data development and implementation services that will complete the initial deployment of the City's enterprise GIS. **Whiteside County, Illinois** retained GTG to conduct public safety software training. **Calvert County, Maryland** selected GTG to create a GIS based utilities management system application. The **City of East Point, Georgia** retained GTG to conduct public safety software training. The **City of Oviedo, Florida** retained GTG to complete a GIS needs assessment and implementation plan.

GTG was selected for multiple software contracts including: The City of Fort Pierce, Florida - (11) Additional Licenses of LGviewer.

About Geographic Technologies Group, Inc. (GTG):

GTG is a full-service local government GIS consulting company offering specialized experience in the planning, design, implementation, and procurement of geo-technologies. GTG has unmatched technical GIS capabilities, demonstrated successes, international experience, and a reputation for successfully implementing the right solutions. GTG develops GIS products that spatially enable various enterprise solutions and integrates an organization's IT investment via a common interface. GTG also offers stand alone products for land management, public safety, public access, touch screen technology, and utilities.

GTG has over 700 clients located throughout North America, the Caribbean, and Europe and serves all levels of government as well as the private sector. To support our clients, GTG maintains six offices located across the United States: Headquarters in North Carolina, and Regional Offices in Texas, Florida, Illinois, Oregon, and Pennsylvania.
