GTG has completed a Public Web for the **City of Oviedo, Florida**.

GTG has been selected to develop a Utility System Network Data for the **City of Titusville, Florida**.

Geographic Technologies Group introduces MapNimbus, the ultimate public Web portal. This dynamic Web portal's easy-to-use interface allows citizens access to important and relevant local government information. Data is now online and readily available to the public. For more information on MapNimbus, visit [www.geotg.com/mapnimbus.html](http://www.geotg.com/mapnimbus.html).

**About Geographic Technologies Group, Inc. (GTG):**

GTG is a full-service local government GIS consulting company offering specialized experience in the planning, design, implementation, and procurement of geo-technologies. GTG has unmatched technical GIS capabilities, demonstrated successes, international experience, and a reputation for successfully implementing the right solutions. GTG develops GIS products that spatially enable various enterprise solutions and integrates an organization's IT investment via a common interface. GTG also offers stand alone products for land management, public safety, public access, touch screen technology, and utilities.

GTG has more than 700 clients located throughout North America and Europe and serves all levels of government as well as the private sector. To support our clients, GTG maintains four offices located across the United States: Headquarters in North Carolina, and regional offices in Texas and Florida.

Additional information may be obtained by contacting Geographic Technologies Group, Inc. at 888-757-4222 or you can access our website at [www.geotg.com](http://www.geotg.com).
