Orange County, Calif. Selects GTG to Develop GIS Strategic Implementation Plan

GOLDSBORO, N.C. – After a competitive bid process, Orange County, California, selected Geographic Technologies Group, Inc. (GTG) to develop a multi-year, phased GIS Strategic Implementation Plan. The plan will evaluate current GIS operations in the County and make recommendations that will ensure an enterprise-wide GIS.

One of the most populous counties in the nation, Orange County is located at the center of Southern California’s Tech Coast. Curt Hinton, CEO of GTG, stated: “This is a very important project for Orange County and an exciting project for our staff. Orange County staff understand that GIS is an integrative tool that will add value to all of their existing Information Technology investments. The County has made a decision to adopt a multi-year plan that will ensure that the solutions will embrace a holistic view of the technology instead of the typical ‘stove-pipes’ of technology that naturally emerge.”

The project will include on-site interviews and presentations to all of the stakeholders. The resultant plan will serve as the step-by-step guide of how GIS is governed, implemented, and distributed throughout the County.

About Geographic Technologies Group, Inc. (GTG):

GTG is a full-service local government GIS consulting company offering specialized experience in the planning, design, implementation, and procurement of geo-technologies. GTG has unmatched technical GIS capabilities, demonstrated successes, international experience, and a reputation for successfully implementing the right solutions. GTG develops GIS products that spatially enable various enterprise solutions and integrates an organization's IT investment via a common interface. GTG also offers stand alone products for land management, public safety, public access, touch screen technology, and utilities.

GTG has over 700 clients located throughout North America and Europe and serves all levels of government as well as the private sector. To support our clients, GTG maintains three offices located across the United States: Headquarters in North Carolina, and Regional Offices in Texas and Florida.
