

## **Ouachita Parish, Louisiana Selects Geographic Technologies Group (GTG) to Implement New GIS Software Solutions**

**Goldsboro, NC** – Geographic Technologies Group, Inc. (GTG) announced today that **Ouachita Parish, Louisiana** has procured products from GTG's LG GIS software suite. Ouachita Parish will be implementing three licenses of LGdispatch.

LGdispatch is a Computer Aided Dispatch (CAD) mapping interface that provides E-911 dispatchers with an interactive map displaying the location of all emergency calls. LGdispatch offers advanced geo-coding capabilities. Addresses can be validated against address points, polygons (tax parcels) and lines (road network).

James Kelt, GTG's Regional Manager and head of GTG's Texas office says, "Ouachita Parish will be implementing LGdispatch making the community a safer place to live. By incorporating mapping software for dispatching Fire, Police and EMS services, officials will be able to reduce response time, locate calls for service, and help first responders arrive on the scene faster ultimately saving time, money and lives. In the realm of emergency services, information is power. By incorporating GIS and HTE's CAD products with LGdispatch, Ouachita Parish has taken the next step for overall public and officer safety."

Ouachita Parish's investment in GTG's LG products highlights the value of our products as an integrated and comprehensive set of GIS solutions that leverage their investment in their CAD and GIS systems. As with other fast-growing communities, Ouachita Parish has embraced cutting-edge technology to improve public safety services for its citizens.

### **About Geographic Technologies Group, Inc. (GTG):**

GTG is a full-service local government GIS consulting company offering specialized experience in the planning, design, implementation, and procurement of geo-technologies. GTG has unmatched technical GIS capabilities, demonstrated successes, international experience, and a reputation for successfully implementing the right solutions. GTG develops GIS products that spatially enable various enterprise solutions and integrates an organization's IT investment via a common interface. GTG also offers stand alone products for land management, public safety, public access, touch screen technology, and utilities.

GTG has over 700 clients located throughout North America, the Caribbean, and Europe and serves all levels of government as well as the private sector. To support our clients, GTG maintains six offices located across the United States: Headquarters in North Carolina, and Regional Offices in Florida, Illinois, Oregon, Pennsylvania and Texas.
