## **Geographic Technologies Group’s Pearland, TX GIS Manager’s Workshop a Success**

**Goldsboro, N.C.** – Geographic Technologies Group, Inc. (GTG) visited Pearland, Texas last week, offering their GIS Manager’s Workshop to GIS and IT managers. Pearland was the first of over ten cities where GTG is offering the workshop this year.

At the end of the workshop, every attendee said they would highly recommend the workshop to other GIS professionals.

“This workshop is outstanding,” said Brian Sterling, GIS Manager of the City of La Porte, Texas. “As a GIS Manager, all of the topics covered are critical to my role in the organization.”

Topics covered in the workshop include Managing GIS, The Governance of GIS, The Enterprise Implementation of GIS, and The Business Case for GIS, with a focus on local government. Attendees learn how to successfully find the necessary funding for their GIS.

The GIS Manager’s Workshop was originally created for GTG’s grand opening in early December. The outpour of positive feedback prompted GTG’s owners Curt Hinton and David Holdstock to take the workshop on the road, further benefiting GIS professionals throughout the nation.

For more information on GIS Manager’s Workshops near you, contact Jessica Horton at 888-757-4222 or [training@geotg.com](mailto:training@geotg.com).

### **About Geographic Technologies Group, Inc. (GTG):**

GTG is a full-service local government GIS consulting company offering specialized experience in the planning, design, implementation, and procurement of geo-technologies. GTG has unmatched technical GIS capabilities, demonstrated successes, international experience, and a reputation for successfully implementing the right solutions. GTG develops GIS products that spatially enable various enterprise solutions and integrates an organization's IT investment via a common interface. GTG also offers stand alone products for land management, public safety, public access, touch screen technology, and utilities.

GTG has over 700 clients located throughout North America and Europe and serves all levels of government as well as the private sector. To support our clients, GTG maintains four offices located across the United States: Headquarters in North Carolina, and Regional Offices in Texas, Florida, and Missouri.
