FOR IMMEDIATE RELEASE

GOLDSBORO, N.C. – Geographic Technologies Group® (GTG®) was selected for multiple software contracts including: **The City of Kearney, Nebraska-** upgraded from LGdispatch to LGdispatch Community Connect. **The City of Safety Harbor, Florida-** purchased six LGviewer workstations and LGaddress- Land. **The City of Portland, Maine-** purchased additional workstations for LGdispatch Community Connect and LGcrimes; the City also purchased Lifers. **The City of Pearland, Texas-** purchases an additional license of LGaddress. **The City of Opelika, Alabama-** purchased two additional licenses of LGviewer. **The City of Dothan, Alabama-** invested in a GIS software upgrade and digital migration. **Cucamongo Valley Water District, CA-** purchased multiple GIS services.

GTG is pleased to announce the addition of **Alex Weddle**. Mr. Weddle joined GTG's field crew and will be based out of Lexington, North Carolina. Mr. Weddle's expertise is in natural resources with a focus on GPS collection and utilities.

Product Spotlight: GTG recently released the **new ArcGIS Server based GeoBlade suite**; the product suite is the next generation of GTG's successful product line. The new GeoBlade is based off of the ArcGIS Server platform and is centered around a core application with add on modules (Blades). In the past, Blades have been separate applications that can now be integrated into the core allowing multiple application functionality. The new ArcServer GeoBlade is written off .NET and ArcGIS server web services and allows for sophisticated data analysis capabilities and multiple integrated security options. This new technology is already in place in several locations across the US, including Calvert County, Maryland; the City of Valdez, Alaska; the City of Lexington, North Carolina; and the City of Olympia, Washington.

About Geographic Technologies Group, Inc.:

GTG is a full-service local government GIS consulting company offering specialized experience in the planning, design, implementation, and procurement of geo-technologies. GTG has unmatched technical GIS capabilities, demonstrated successes, international experience, and a reputation for successfully implementing the right solutions. GTG develops GIS products that spatially enable various enterprise solutions and integrates an organization's IT investment via a common interface. GTG also offers stand alone products for land management, public safety, public access, touch screen technology, and utilities.

GTG has over 700 clients located throughout North America, the Caribbean, and Europe and serves all levels of government as well as the private sector. To support our clients, GTG maintains four offices located across the United States: Headquarters in North Carolina, and Regional Offices in Texas, Missouri, and Florida.
