St. Mary's County, Maryland Selects Geographic Technologies Group (GTG) to implement GIS Software Solutions

Goldsboro, NC – Geographic Technologies Group, Inc. (GTG) announced today that **St. Mary's County, Maryland** has procured software and services from GTG. The County purchased an upgrade of LGdispatch to LGcommunity connect.

LGcommunity connect is a GIS software solution that allows both HTE Land and Public Safety users to integrate AVL with LG software. The software allows GPS enabled vehicles to be tracked via the GIS interface. It takes GPS data from vehicles and places a moving map symbol on the GIS map interface that corresponds to the vehicles location in the real world. Historical AVL information is maintained with the product.

Curtis Hinton, CEO and Co-owner of GTG, stated, "GTG has enjoyed a fruitful partnership with St. Mary's County. Their GIS and IT staff are very proactive and understand how to leverage GIS to get the most out of County government. The implementation of AVL and mobile tools is the next step in a logical evolution of their efforts. St. Mary's County has shown time and again the ability to be innovative on a limited budget. They have shown leadership in Maryland and for rural counties nationwide."

About Geographic Technologies Group, Inc. (GTG):

GTG is a full-service local government GIS consulting company offering specialized experience in the planning, design, implementation, and procurement of geo-technologies. GTG has unmatched technical GIS capabilities, demonstrated successes, international experience, and a reputation for successfully implementing the right solutions. GTG develops GIS products that spatially enable various enterprise solutions and integrates an organization's IT investment via a common interface. GTG also offers stand alone products for land management, public safety, public access, touch screen technology, and utilities.

GTG has over 700 clients located throughout North America, the Caribbean, and Europe and serves all levels of government as well as the private sector. To support our clients, GTG maintains six offices located across the United States: Headquarters in North Carolina, and Regional Offices in Florida, Illinois, Oregon, Pennsylvania and Texas.
