Sutter County, California Selects Geographic Technologies Group (GTG) to Implement GIS Software Solutions

Longview, TX– Geographic Technologies Group, Inc. (GTG) announced today that **Sutter County, California** has procured software and services from GTG. The County purchased an upgrade of two (2) additional licenses of LGmobile with LGcommunity connect.

LGcommunity connect is a GIS software solution that allows both HTE Land and Public Safety users to integrate AVL with LG software. The software allows GPS enabled vehicles to be tracked via the GIS interface. It takes GPS data from vehicles and places a moving map symbol on the GIS map interface that corresponds to the vehicles location in the real world. Historical AVL information is maintained with the product.

James Kelt, Regional Manager for GTG said, "LGmobile with LGcommunity connect is one of the most powerful tools available to 911 first responders today. The ability to plot vehicle locations, Computer Aided Dispatch locations, GIS data, and a wealth of other real world information in a mobile map is a concept that has been on the 'wish list' of police departments across the United States for some time. LGmobile with LGcommunity connect accomplishes just that and much more. This application empowers Sutter County officers with the tools needed to help reduce crime and save lives."

About Geographic Technologies Group, Inc. (GTG):

GTG is a full-service local government GIS consulting company offering specialized experience in the planning, design, implementation, and procurement of geo-technologies. GTG has unmatched technical GIS capabilities, demonstrated successes, international experience, and a reputation for successfully implementing the right solutions. GTG develops GIS products that spatially enable various enterprise solutions and integrates an organization's IT investment via a common interface. GTG also offers stand alone products for land management, public safety, public access, touch screen technology, and utilities.

GTG has over 700 clients located throughout North America, the Caribbean, and Europe and serves all levels of government as well as the private sector. To support our clients, GTG maintains six offices located across the United States: Headquarters in North Carolina, and Regional Offices in Florida, Illinois, Oregon, Pennsylvania and Texas.
