GTG Welcomes GIS Technician Tommy Cullop to North Carolina Corporate Office

GOLDSBORO, N.C. – Geographic Technologies Group, Inc. (GTG) announces the recent addition of Tommy Cullop, GIS technician, to their North Carolina corporate office.

As a GIS technician, Cullop will be responsible for performing GIS services such as creating and ensuring data accuracy. He will also visit client sites to collect critical GIS data. “I will gather and create accurate data so our clients will be able to have an aide in making decisions and working more efficiently,” said Cullop.

Cullop enters this position with prior experience in providing GIS services to local governments. He has recently completed an internship with the Town of Farmville, N.C. Planning Department where he performed GIS work as part of a larger project relating to the town’s historic district. He also has valuable hands-on experience with GIS data collection services.

Cullop says that he hopes to contribute to the success of GTG’s clients through his work. “I am looking forward to seeing the positive results my work will have on our clients and their communities,” said Cullop.

“We are very pleased to have Tommy as a part of the GTG team,” said Curt Hinton, CEO of GTG. “His enthusiasm for our clients’ success reflects GTG’s top priority of customer satisfaction.”
