The City of Unalaska, Alaska Selects GTG to Develop GIS Strategic Implementation Plan

GOLDSBORO, N.C. – After a competitive bid process, the City of Unalaska, Alaska, selected Geographic Technologies Group, Inc. (GTG) to develop a GIS Needs Assessment and Strategic Implementation Plan. The plan will evaluate current GIS operations in the City and make recommendations that will ensure an enterprise-wide GIS for the future.

Located off the mainland in the Aleutian Islands, the City of Unalaska is located on Unalaska Island and neighbors Amaknak Island, better known as Dutch Harbor. The port of Unalaska/Dutch Harbor is the main port for the Bering Sea crab fishery.

“The staff at Unalaska are great,” said Curt Hinton, CEO of GTG. “They are very enthusiastic about GIS and what it can do for the City. Every City department has identified potential needs that would benefit their staff and the citizens. Unalaska will no doubt be successful with its GIS efforts. We are very excited to work with City staff and to be able to share in the unique beauty that only can be found in the Alaskan Aleutian Islands.”

The project will include on-site interviews and presentations to all of the stakeholders. The resultant plan will serve as the step-by-step guide of how GIS is governed, implemented, and distributed throughout the City.

About Geographic Technologies Group, Inc. (GTG):

GTG is a full-service local government GIS consulting company offering specialized experience in the planning, design, implementation, and procurement of geo-technologies. GTG has unmatched technical GIS capabilities, demonstrated successes, international experience, and a reputation for successfully implementing the right solutions. GTG develops GIS products that spatially enable various enterprise solutions and integrates an organization's IT investment via a common interface. GTG also offers stand alone products for land management, public safety, public access, touch screen technology, and utilities.

GTG has over 700 clients located throughout North America and Europe and serves all levels of government as well as the private sector. To support our clients, GTG maintains five offices located across the United States: Headquarters in North Carolina, and Regional Offices in Texas, Illinois, and Florida.
