Wayne County, North Carolina Develops Enterprise GIS with GTG's Geo Blade Viewer

Goldsboro, N.C. – Geographic Technologies Group, Inc. (GTG) announces that Wayne County, NC has procured GTG's Geo Blade Viewer. With this recent addition, Wayne County will be better equipped to provide an enterprise GIS to the County, ensuring a solid return on investment.

Wayne County is located in the Inner Coastal Plain of North Carolina and is located just east of the State capital of Raleigh.

Geo Blade Viewer is a powerful GIS viewer application that allows local government agencies to easily query and analyze GIS data. Designed to be used by all staff, the core viewer application was designed for the end user and provides a set of GIS tools in an easy-to-use desktop application. Tools include portal setups, automatic mining of data from any record management system, and hot linking.

"Wayne County is our longest standing customer," said Curt Hinton, CEO of GTG. "We have been working hand-in-hand with them over the past 15 years. As each new version of GIS has been released, GTG has worked with Wayne County to ensure that they have the latest and best technology. Implementing ESRI's ArcGIS Server and GTG's Geo Blade solution is the logical progression in the string of GIS successes at the County. We look forward to continuing to work with Wayne County for the next 15 years."

For more information on the Geo Blade software suite, visit www.geotg.com/geoblade.html or call 888-757-4222.

About Geographic Technologies Group, Inc. (GTG):

GTG is a full-service local government GIS consulting company offering specialized experience in the planning, design, implementation, and procurement of geo-technologies. GTG has unmatched technical GIS capabilities, demonstrated successes, international experience, and a reputation for successfully implementing the right solutions. GTG develops GIS products that spatially enable various enterprise solutions and integrates an organization's IT investment via a common interface. GTG also offers stand alone products for land management, public safety, public access, touch screen technology, and utilities.

GTG has over 700 clients located throughout North America and Europe and serves all levels of government as well as the private sector. To support our clients, GTG maintains four offices located

across the United States: Headquarters in North Carolina, and Regional Offices in Texas, Illinois, and Florida.
