## **GTG Offers Exclusive GIS Manager's Workshop in West Sacramento, California**

**Goldsboro, N.C.** – Only three weeks remain to register for the GIS Manager's Workshop in West Sacramento! Geographic Technologies Group, Inc.'s (GTG) will offer the exclusive GIS Manager's Workshop in West Sacramento, California, on July 8. There are limited spots remaining; register before it's too late!

West Sacramento is one of the first west coast cities to successfully launch an enterprise-wide GIS initiative. They have combined the practicality and ease-of-use of GIS to offer public kiosks to their citizens, and have effectively saved thousands of dollars annually with other GIS related cost savings. West Sacramento's location will offer students the opportunity to view a successful GIS operation, and provide the practical knowledge many GIS managers must have to succeed.

This workshop is ideal for both GIS and IT professionals. Topics covered in the workshop include Managing GIS, The Governance of GIS, The Enterprise Implementation of GIS, and The Business Case for GIS, with a focus on local government.

"GTG's long lasting relationship with the City of West Sacramento, as well as the City's devotion to a successful GIS, makes them a perfect host for the GIS Manager's Workshop," said Hinton. "Together, we will provide insightful and practical examples of how a GIS can be successfully implemented."

West Sacramento is just one location in the series of workshops that GTG's owners, Curt Hinton and David Holdstock, are offering nationwide this year. The West Sacramento workshop is expected to be the most highly attended workshop in this series, so don't miss out! GTG will also offer the GIS Manager's Workshop in Olympia, Washington, on September 3.

For more information on GTG's GIS Manager's Workshops or to register for a workshop, visit [www.geotg.com/training](http://www.geotg.com/training) or email [training@geotg.com](mailto:training@geotg.com).

### **About Geographic Technologies Group, Inc. (GTG):**

GTG is a full-service local government GIS consulting company offering specialized experience in the planning, design, implementation, and procurement of geo-technologies. GTG has unmatched technical GIS capabilities, demonstrated successes, international experience, and a reputation for successfully implementing the right solutions. GTG develops GIS products that spatially enable various enterprise

solutions and integrates an organization's IT investment via a common interface. GTG also offers stand alone products for land management, public safety, public access, touch screen technology, and utilities.

GTG has over 700 clients located throughout North America and Europe and serves all levels of government as well as the private sector. To support our clients, GTG maintains three offices located across the United States: Headquarters in North Carolina, and Regional Offices in Texas and Florida.

Additional information may be obtained by contacting Geographic Technologies Group, Inc. at 888-757-4222 or you can access our website at [www.geotg.com](http://www.geotg.com).
