Registration Open for GIS Manager's Workshop in Olympia, Wash.

Goldsboro, N.C. – It's not too late to sign up! Registration remains open for Geographic Technologies Group, Inc.'s (GTG) upcoming GIS Manager's Workshops in Olympia, Washington, on May 7. This workshop is ideal for both GIS and IT professionals.

Topics covered in the workshop include Managing GIS, The Governance of GIS, The Enterprise Implementation of GIS, and The Business Case for GIS, with a focus on local government. Attendees learn how to successfully find the necessary funding for their GIS.

The GIS hub of the northwest United States, Olympia is home to the Northwest Regional Office of ESRI, a business partner of GTG. Olympia is just one location in the series of workshops that GTG's owners, Curt Hinton and David Holdstock, are offering nationwide this year. Other scheduled locations include West Sacramento, California, on July 8.

"This workshop is outstanding," said Brian Sterling, GIS Manager of the City of La Porte, Texas and a recent attendee of the workshop. "As a GIS Manager, all of the topics covered are critical to my role in the organization."

For more information on GTG's GIS Manager's Workshops or to register for a workshop, visit www.geotg.com/training.html or email training@geotg.com.

About Geographic Technologies Group, Inc. (GTG):

GTG is a full-service local government GIS consulting company offering specialized experience in the planning, design, implementation, and procurement of geo-technologies. GTG has unmatched technical GIS capabilities, demonstrated successes, international experience, and a reputation for successfully implementing the right solutions. GTG develops GIS products that spatially enable various enterprise solutions and integrates an organization's IT investment via a common interface. GTG also offers stand alone products for land management, public safety, public access, touch screen technology, and utilities.

GTG has over 700 clients located throughout North America and Europe and serves all levels of government as well as the private sector. To support our clients, GTG maintains three offices located across the United States: Headquarters in North Carolina, and Regional Offices in Texas and Florida.

Additional information may be obtained by contacting Geographic Technologies Group, Inc. at 888-757-4222 or you can access our website at www.geotg.com.
